Introduction

This demonstration guide is intended to provide guidance to the Georgia DCH staff as they use the MAXIMUS PDMS demonstration environment. This is not intended to be a comprehensive user guide and covers a limited number of primary use cases. This document does not include guidance on all workflows or workflow paths. MAXIMUS staff is available to guide you through scenarios not covered in this guide.

Main Landing Page – Expanded Menu

The screenshot shows the main landing page of the MAXIMUS PDMS system. At the top, a dark blue navigation bar contains a home icon, the text "Provider Data Management System", "Medicaid Home", "Learning", and "Contact". On the right side of the bar are "Sign Up" and "Login" links. Below the navigation bar is a "Log In" section with a light blue background. It contains the text "Please enter your User ID and Password. [Create Account](#) if you don't have an account." followed by "Account Information". There are two input fields: "User ID" and "Password". Below these fields are two links: "Forgot Password?" and "Forgot User ID?". At the bottom of the login section are two buttons: "Log In" and "Unlock User". Below the login section is a "Latest News" section with a light blue background. It features an orange RSS icon and a notification titled "MCO Transition Notification" with the text "Please review this **important** notification regarding the MCO Transition effective August 1, 2019, in the District of Columbia. Notice is posted here." and a "Link" below it. A red arrow points to the expanded menu icon (three horizontal lines) in the top left corner of the navigation bar.

Create Provider Account

This screenshot is identical to the one above, showing the main landing page of the MAXIMUS PDMS system. However, a red arrow points to the "Create Account" link in the "Log In" section, highlighting it for the user. The rest of the page, including the navigation bar, login fields, and latest news section, remains the same.

Enter the required data to complete Account Creation as a provider. Note that if you want to start an application for an individual you must use an SSN. If you are starting an application for a facility or group, indicate you are entering an EIN. Click Next.

Enter Provider Info

Create User ID & Password

Confirmation

Get started by filling out the form below

* Designates a required field

The Tax ID you establish during your account setup process cannot be changed once your account is created. Please be careful to enter the correct Tax ID (EIN or SSN) when establishing your account. If you are an Individual Provider, you must enter your SSN as your primary tax identifier. You will have the opportunity to add your EIN (if applicable) later in the enrollment/re-enrollment process. If you are a Group, Institution, or Facility you should enter your EIN. However, you may use your SSN as your primary Tax Identifier if you do not have an EIN. Existing providers that are intending to do a re-enrollment or an update will be required to enter additional identifying information before establishing an account. Once the Tax ID is established for your account, you will be able to enroll, re-enroll, and update other providers that may use this same Tax ID.

Once the account has been established, you must activate the account. There are two ways to do this. One is to use the link in the email that goes to the email address provided. Another way is to enter the new user id and click on the Unlock User button. Note this button does not appear in production and is present here merely to facilitate testing.

Provider Screening

Once the application is marked complete during provider review, new and re-enrolling providers, as well as primary service location changes for moderate and high risk providers, are subject to screening. The first step is to complete provider screening. Moderate and high risk providers also have a Site Visit line for the Enrollment Specialist to indicate whether a site visit is needed.

To update the Site Visit section, click on the pending link of the site visit line.

Owner Screening

All owners and managing employees for non-individual providers are listed in the grid under Provider Owner summary. The data that displays in the Details section changes based on which owner is highlighted. In the example below, Steve Mason is highlighted and Steve Mason's data displays. He has two potential matches with databases: one with OIG/LEIE and one with SAM/EPLS. These are indicated with a yellow circle on the left. This indicates that the user must clear or validate the potential matches in order to move to the next step. Click on the Match Confirm link to display the results retrieved from the other database.

Provider Credentialing – Primary Source Verification

Once an individual provider passes the provider screening step, new provider applications and providers due for re-credentialing are subject to credentialing. Primary source verifications for individual providers are completed by users with the Credentialing Specialist role. Credentialing Specialists have their own work queue. The Credentialing Specialist could have several tasks in their work items list. Clicking on the task takes the Credentialing Specialist to the appropriate page to take action. To add an application to the Work Items list, click Get Next in Queue.

Task	Workflow	Name	Tax ID	NPI	Provider Type	Aging	Risk Level
Provider Credentialing	Registration - New	David J Janeira	536483736	1386094894	Physician MD	0	Limited

Credentialing is completed using a combination of automated system functions that verify credentials against the primary source database (marked by green checks) as well as manual primary source verifications (marked by blue dots). The Credentialing Specialist clicks on each unverified data category and performs primary source verification. To update a credentialing data category, click on the pending link in the grid.

✓ ABMS Board Verification	Pass	09/11/19	
● Education Verification	Pending		

Details for the credentialing category will display at the bottom of the grid. Set the Data Rank to the desired ranking by selecting from the list in the drop down. Definitions of the Data Rank values are:

- **Pass:** information verified, verification clearly passes parameters established by Credentialing Committee
- **Fail:** information verified, verification fails parameters established by the Credentialing Committee
- **Unconfirmed:** certain information unable to be verified after a number of days of continuous attempts as set forth by Credentialing Committee policy
- **Conditional:** Information verified, primary source verification shows that the Provider doesn't Fail the category but can be conditionally passed (e.g. Gap in work history explained). Or, DEA License expires within 3 months (but is currently valid)
- **Pending:** user or system has not yet taken action on the primary source verification for the category.

Credentialing Committee Review

Once the primary source verification is completed by the Credentialing Specialist, the provider transitions to the Committee Chairman's queue. After login, the Committee Chairman is automatically taken to the Credential Committee Review page. From this page, the Committee Chairman can search for providers based on the search criteria displayed at the top of the screen.

Data Rank	Name	Task	Workflow	NPI	Provider Type	Aging	Risk Level
Conditional	SUSANNA VESEI	Committee Chairman Review	Registration - New	1992003073	Physician MD	6	Limited
Conditional	MICHAEL GREGOREK	Committee Chairman Review	Registration - New	1992000285	Physician MD	6	Limited
Pass	David J Janeira	Committee Chairman Review	Registration - New	1386094894	Physician MD	0	Limited
Pass	GURKAMAL HANS	Committee Chairman Review	Registration - New	1447609342	Physician MD	0	Limited

From this screen, the Committee Chairman is able to select individual providers for review by clicking on the provider name link within the grid. The Committee Chairman can also filter the grid by searching for all

Providers in 'Pass' status. When the screen displays where all providers are in 'Pass' status, the Committee Chairman has the option to approve all displayed providers.

Provider Name Data Rank Workflow Provider Type

☐ Approve all displayed providers

Work Items

Data Rank	Name	Task	Workflow	NPI	Provider Type	Aging	Risk Level
Pass	David J Janeira	Committee Chairman Review	Registration - New	1386094894	Physician MD	0	Limited
Pass	GURKAMAL HANS	Committee Chairman Review	Registration - New	1447609342	Physician MD	0	Limited

When the Committee Chairman checks the radio button to approve all displayed providers a pop-up window displays requesting the Committee Chairman to record which Committee Members were present during the review meeting.

Take Action

By clicking approve, you are approving all providers displayed in your queue. Before approving, please select the committee members that were present during the Credentialing Committee review meeting.

Committee Members Present

☐ Peter Durell
☐ Don Bower
☐ Cathy Guard

When the Committee Chairman selects the members and clicks the Approve button, all providers are approved. Subsequent automated steps in the workflow generate and send the welcome letter to each of the approved providers and trigger interface transactions to be sent to other State modules. Once approve is clicked, the Committee Chairman is returned to the queue to process remaining providers.

The Committee Chairman can set the Provider's overall status to any of the following categories:

- Pass – Provider should be approved without any restrictions, per Committee policy
- Fail – Provider should be denied enrollment into the Medicaid Program, per Committee policy
- Approved with Restrictions – Provider can be approved, but will be subjected to ongoing monitoring, per Committee policy

The Committee Chairman also has the ability (optionally) to update/override any of the data rankings that were previously assigned by the Credentialing Specialist. Click on the Data Rank link and the system will display the credentialing details for that data category. The chairman can override the data ranking and add additional notes to document the decision.

Committee Member Action:

Pass

Comments:

Provider can be passed.

When the Committee Chairman selects the appropriate action and is ready to process the provider, click on the Review Complete button. This will remove the Provider from the Committee Chairman's queue and will complete the Credentialing Review step of the workflow. Once Review Complete button is clicked, the Committee Chairman is returned to the queue to process remaining providers. Subsequent workflow steps for the provider will be triggered based on whether the provider has a pass or fail status. Providers set to 'Pass' or 'Approve with Restrictions' will follow the path of an approved Provider. Provider's set to 'Fail' will be denied and a denial letter will be sent to the Provider.

FCBC

To move a provider to the FCBC step, approve a high risk provider (DME or Home Health) with owners who are individuals. Log in as the Operator role. Providers in Fingerprint and Background Entry task are ready for FCBC.

Site Visit Screening

For new or re-enrolling providers, the Approve button appears. Select it to complete the site visit:

DHCF Reviewer

Denials and terminations require an additional review. This role reviews the application and decides whether to proceed with denial or termination. If so, the application moves to the appeal specialist queue.

Log in as DHCF Reviewer. Select Review Denial link.

Get Next In Queue

The system navigates to the Agreements page where you can take action to either deny/terminate or approve the application. Selecting denial or termination requires you to enter notes that will be viewed by the Appeal Specialist role. You also have the option to upload a document. Click the Save button at the bottom of the pop-up.

Description

The screenshot displays the 'Agreements' step in a multi-step onboarding process. The navigation bar at the top indicates the current step is 'Agreements', which is highlighted in yellow. The previous step, 'Agreement Questions', is also highlighted. The 'Agreements' section contains a 'Generate PDF' button and a red arrow pointing to a 'Deny' button. Other buttons visible are 'Return To Screening', 'Save', 'Take Action', 'Previous', and 'Next'.
