Overview

The PDMS Web Portal user guide provides step by step instructions on how to submit an electronic application. The PDMS dashboard displays data for each stage of the enrollment process and allows providers to start a new application or take action on previously submitted applications and re-enrollments. From their dashboard, Provider Enrollment Specialists can view the current status of new provider applications as well as initial/ongoing re-enrollments. Their dashboard tracks the aging of each provider application based on the workflow step/status of the application.
